The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0924702. Note at least the spring 16 and slide door 3 as shown in figs. 24A-24D. At least fig. 24D shows the one spring end to be at a lower position in height than the top end of the slider stop. It should be noted that the end part is supported in both the lower and upper halves of the case.

Claims 4, 6, and 11-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP 0924702 in view of JP 11-265560.

JP '560 shows another similar apparatus in which a hooking hole 15 is provided in the slide door to engage the spring end. It would have been obvious to a person having ordinary skill in the art to provide the EP apparatus with a hooking hole as taught by JP '560 to engage a spring end so that the spring end is always positively engaged to the slide door. Relative to claims 15 and 16, the length of the spring arm would have been an obvious matter of design choice to a person having ordinary skill in the art based on factors such as preference, design criteria (such as based on desired applied force), and space optimization.

Applicant's arguments filed 9/22/05 have been fully considered but they are not persuasive.

Art Unit: 3654

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "assembling the magnetic tape cartridge") are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
